1. Vision Statement

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that "schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation". According to the Equality Act 2010 a person has a disability if:
(a) He or she has a physical or mental impairment, and
(b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education's guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head.

At Darton Primary School, we create a caring, inclusive community where every child feels safe, proud and has a true sense of belonging. Through strong foundations in learning and character, we nurture aspiration and resilience, empowering children to thrive, achieve their best and grow into confident individuals ready for the future. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally. We are committed to providing an inclusive and accessible environment for all students, staff, parents and visitors. Our Accessibility Plan is designed to ensure that individuals with disabilities have equal access to education, facilities, and information in line with the Equality Act 2010 and best practises in the UK educational setting.

Darton Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable. The Accessibility Plan contains relevant and timely actions to:-

- Increase access to the curriculum for pupils with a disability, expanding the **curriculum** as necessary to ensure that pupils with a disability are as equally prepared for life as are the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or **auxiliary aids and equipment**, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
- Improve and maintain access to the **physical environment** of the school, adding specialist facilities as necessary – these covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
- Improve the delivery of **written information** to pupils, staff, parents and visitors with disabilities; examples might include hand-outs and information about the school and school

events; the information should be made available in various preferred formats within a reasonable timeframe.

The Darton Primary School Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

Whole school training will recognise the need to continue raising awareness for staff and Committee Members on equality issues with reference to the Equality Act 2010.

The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the Local Academy Committee. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

The Accessibility Plan will be published on the school website.

2. Aims and Objectives

The purpose of this policy is to outline our school's commitment to promoting equality and inclusion by removing barriers and providing reasonable adjustments for individuals with disabilities through responding to these two key questions.

- How can we ensure that all members of our school community, regardless of disabilities, have equal access to education and facilities?
- What steps can we take to create a more inclusive and accessible environment at Darton Primary?

Our Aims are:

- **Increase access to the curriculum for pupils with a disability**
- **Improve and maintain access to the physical environment**
- **Improve the delivery of written information**

Our objectives are detailed in the Action Plan below

3. Current Good Practice

We aim to ask about any disability or health condition in early communications with new parents and carers. For parents and carers of children already at the school, we collect information on disability through Early Help Assessment and by information collection at the start of each year or when a new pupil joins the school.

Physical Environment

Disabled pupils participate in extra-curricular activities. Some aspects of extra-curricular activities present particular challenges, for example: lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments, school trips for pupils with medical needs. Disabled pupils can access all areas of the school.

Curriculum

Darton Primary School are aware there are areas of the curriculum to which disabled pupils have limited access where provision needs to be adapted. Other issues affect the participation of disabled pupils, for example: peer relationships, policies on the administration of medicines, the provision of personal care, the presence or lack of role models or images of disabled people.

Information

Different forms of communication are made available to enable all disabled pupils to express their views and to hear the views of others. Access to information is planned, with a range of different formats available for disabled pupils, parents and staff.

4. Access Audit

The school is a one-storey building with wide corridors and several access points from outside. The school has wide door access to all rooms and all rooms can be accessed via entrance from the main reception.
On-site car parking for staff and visitor includes dedicated disabled parking bays. All entrances to the school are mainly flat and all have wide doors fitted. There are disabled toilet facilities available and these are fitted with a handrail and a pull emergency cord.

5. Management, coordination, and implementation

We will consult with experts when new situations regarding pupils with disabilities arise. We work closely with agencies to ensure we are able to provide the appropriate access prior to a pupil commencing at Darton Primary School. This is primarily done through multi-agency planning and Early Help Assessment.

6. Action Plan

Aim 1: To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability.
